Flooring Systems

MasterTop Performance Flooring

MasterTop® epoxy, polyurethane, and polyaspartic flooring systems have been protecting and beautifying floors since 1925. From chemical resistant floors to decorative aggregate systems, MasterTop materials, now part of Master Builders Solutions by BASF brand, offer the diversity and time-tested performance required by today's building owners.

MasterTop resinous flooring systems combine ease of maintenance with the toughness and durability required in challenging commercial, institutional and industrial environments. In addition, MasterTop flooring systems can be installed in a variety of attractive colors, finishes and surface profiles. All MasterTop flooring systems are available in a variety of textures to provide slip resistance for enhanced safety.

The full product line of MasterTop epoxy and polyurethane flooring materials are customized to your specific needs. Create unique systems for your facility that take into account available downtime, durability, construction schedules and budgets.

Performance

Protection from harsh conditions keeps your facility up and running faster and longer. MasterTop flooring systems provide:

- Durability in high traffic areas
- Superior chemical resistance
- Varying surface textures
- Reduced downtime with quick curing solutions

Appearance

Beautiful floors can give your facility a unique appearance while meeting all your functional requirements. These customizable flooring systems provide:

- Unlimited color variety for ultimate design flexibility
- Attractive finishes and surface textures
- Variety of decorative broadcasts in both color and appearance
- Cleaning and maintain ease

MasterTop Customizable Solutions

MasterTop Clad Systems

MasterTop clad systems are heavy duty flooring systems designed for high traffic areas that require protection from impact, abrasion and a wide range of potentially damaging chemicals.

- Excellent impact and abrasion resistance
- Available with smooth or textured surface
- Low odor and VOC compliant
- Uniform color appearance with different finishes available

MasterTop Enhanced Chemical Resistant Systems

Chemical-resistant MasterTop flooring systems are designed for industrial facilities with exposure to harsh chemicals. MasterTop systems provide superior resistance to a wide variety of chemicals for repeated splash and spill, as well as submerged environments.

- Protects floors from inorganic and organic acids, caustics and solvents
- Available in Novolac formulation to provide the greatest chemical resistance
- Can be designed with either smooth or textured surface for added traction
- Can be troweled at 1/4 inch thickness to provide increased abrasion and impact resistance
- Low odor and VOC compliant

MasterTop Coating Systems

MasterTop epoxy coating systems are designed to provide a high level of abrasion and chemical resistance.

- Available in a variety of textures and profiles to accommodate your aesthetic and traction needs
- Available with an extended wear additive for extra protection in high traffic areas
- Low odor and VOC compliant

MasterTop Decorative Quartz Systems

MasterTop decorative quartz systems are designed to utilize a variety of specially processed colored aggregates to create an attractive and durable floor.

- Excellent abrasion resistance with a variety of textured surfaces
- Endless color opportunity for ultimate design flexibility
- Exceeds Federal ADA requirements for slip resistance in accordance with ASTM D1028
- Low odor and VOC compliant
- Uniform color appearance with different finishes available
- Broadcast and troweled systems available to achieve the texture desired

MasterTop Wall Systems

MasterTop wall systems are high-build epoxy coating systems designed for interior walls and ceilings.

- Excellent abrasion and impact resistance, in addition to crack bridging capabilities
- White formulations provide high light reflectivity and increased visibility for a safer work environment
- Hard surface that is easy to clean and maintain
- Low odor and VOC compliant

Master Builders Solutions from BASF

The Master Builders Solutions brand brings all of BASF's expertise together to create chemical solutions for new construction, maintenance, repair and renovation of structures. Master Builders Solutions is built on the experience gained from more than a century in the construction industry.

The know-how and experience of a global community of BASF construction experts form the core of Master Builders Solutions. We combine the right elements from our portfolio to solve your specific construction challenges. We collaborate across areas

of expertise and regions and draw on the experience gained from countless construction projects worldwide. We leverage global BASF technologies, as well as our in-depth knowledge of local building needs, to develop innovations that help make you more successful and drive sustainable construction. The comprehensive portfolio under the Master Builders Solutions brand encompasses concrete admixtures, cement additives, chemical solutions for underground construction, waterproofing solutions, sealants, concrete repair and protection solutions, performance grouts and performance flooring solutions.

Master Builders Solutions products from BASF for the Construction Industry:

MasterAir®

Solutions for air-entrained concrete

MasterBrace®

Solutions for concrete strengthening

MasterCast®

Solutions for manufactured concrete product industry

MasterCem®

Solutions for cement manufacture

MasterEmaco®

Solutions for concrete repair

MasterFinish®

Solutions for formwork treatment

MasterFlow®

Solutions for precision grouting

MasterFiber®

Comprehensive solutions for fiber reinforced concrete

MasterGlenium®

Solutions for high-performance concrete

MasterInject®

Solutions for concrete injection

MasterKure®

Solutions for concrete curing

MasterLife®

Solutions for enhanced durability

MasterMatrix®

Advanced rheology control solutions for self-consolidating concrete

MasterPel®

Solutions for water tight concrete

MasterPolyheed®

Solutions for high-performance concrete

MasterPozzolith®

Solutions for water-reduced concrete

MasterProtect®

Solutions for concrete protection

MasterRheobuild®

Solutions for super-plasticized concrete

MasterRoc®

Solutions for underground construction

MasterSeal®

Solutions for waterproofing and sealing

MasterSet®

Solutions for retardation control

MasterSure®

Solutions for workability control

MasterTop®

Solutions for industrial and commercial floors

Ucrete®

Flooring solutions for harsh environments

LIMITED WARRANTY NOTICE: BASF warrants this product to be free from manufacturing defects and to meet the technical properties on the current Technical Data Guide, if used as directed within shelf life. Satisfactory results depend not only on quality products but also upon many factors beyond our control. BASF MAKES NO OTHER WARRANTY OR GUARANTEE, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO ITS PRODUCTS. The sole and exclusive remedy of Purchaser for any claim concerning this product, including but not limited to, claims alleging breach of warranty, negligence, strict liability or otherwise, is shipment to purchaser of product equal to the amount of product that fails to meet this warranty or refund of the original purchase price of product that fails to meet this warranty, at the sole option of BASF. Any claims concerning this product must be received in writing within one (1) year from the date of shipment and any claims not presented within that period are waived by Purchaser. BASF WILL NOT BE RESPONSIBLE FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL (INCLUDING LOST PROFITS) OR PUNITIVE DAMAGES OF ANY KIND.

Purchaser must determine the suitability of the products for the intended use and assumes all risks and liabilities in connection therewith. This information and all further technical advice are based on BASF's present knowledge and experience. However, BASF assumes no liability for providing such information and advice including the extent to which such information and advice may relate to existing third party intellectual property rights, especially patent rights, nor shall any legal relationship be created by or arise from the provision of such information and advice. BASF reserves the right to make any changes according to technological progress or further developments. The Purchaser of the Product(s) must test the product(s) for suitability for the intended application and purpose before proceeding with a full application of the product(s). Performance of the product described herein should be verified by testing and carried out by qualified experts.
